ABSTRACT

A Law Enforcement Assistance Administration grant funded this directory of services to battered women. Addresses, phone numbers, a listing of services and funding sources for shelters and other services are provided for the United States and Puerto Rico. The directory serves as a locator of services for battered women, as well as an idea resource book for agencies interested in developing similar services in their own area. Many of the individual agencies listed have additional material available, and, where possible, have provided copies to the Women Policy Studies which serves as a resource center for such materials. This information was gathered to verify and update our records of the location, program components and funding sources of groups providing services to battered women. The listing is being duplicated and mailed to the organizations who contributed information to it in appreciation of their cooperation. It is our hope that the material will be reproduced and utilized to facilitate the work of these groups.

The data were collected between April and June 1979. The final page is a form service providers can use to furnish the Center for Women Policy Studies with current information.
